

# 124R™

- YEAR ROUND TRACTION
- LONG ORIGINAL TREAD LIFE
- BUILT FOR LONG LASTING VALUE

### LONG-LASTING, ALL-WEATHER PERFORMANCE

Available in sizes from 19.5" – 22.5", the all-new Yokohama 124R is a long-lasting, all-position radial with a deeply-siped tread engineered to keep your regional pick-up and delivery fleet moving year round. The 124R meets the industry's required performance criteria for severe snow service and will carry the three-peak mountain snowflake symbol on the sidewall.

**DEEP SIPES**  
Deeply-siped ribs provide outstanding wet and snow braking creating traction so powerful the 124R carries the severe snow service designation.

**SERPENTINE GROOVES**  
Four wavy circumferential grooves promote even wear and provide optimized traction in the wet and snow.

**EXTRA WIDE TREAD**  
Promotes better dispersal of contact pressure with the road to deliver longer tread life.

**RIGID SHOULDER RIBS**  
Reduce shoulder step-down wear and enhance driving stability.

**ROCK SHIELD PLATFORMS**  
Reduce stone and debris penetration for improved casing life, durability, and retreadability.
