

704R

REGIONAL PICK-UP & DELIVERY, DRIVE

DELIVERS YEAR-ROUND

- YEAR ROUND TRACTION
- ADVANCED WEAR RESISTANCE
- DURABLE CONSTRUCTION

LONG LASTING REGIONAL DRIVE TIRE FOR ALL-WEATHER PERFORMANCE

The 704R is a long lasting regional directional drive tire engineered to keep your regional pick up and delivery fleet moving year round. It's extra-wide tread efficiently distributes contact pressure across the entire footprint to provide longer wear and traction. The 704R meets the industry's required performance criteria for severe snow service and will now carry the three-peak mountain snowflake symbol on the sidewall.

EXTRA WIDE TREAD

Maximize traction on wet and snowy roads. Promotes better dispersal of contact pressure with the road to deliver longer tread life.

HIGH RIGIDITY BLOCK SHAPE

Significantly minimize heel and toe wear and provide additional traction under wet and snowy road conditions.

ALTERNATED BLOCK PLACEMENT WITH SHORT BLOCKS

Increases anti irregular wear performance and provides outstanding wet & snow traction. Improves the noise level performance.

ADVANCED TREAD COMPOUND

Increases tread life and optimizes fuel economy.
