

116R™

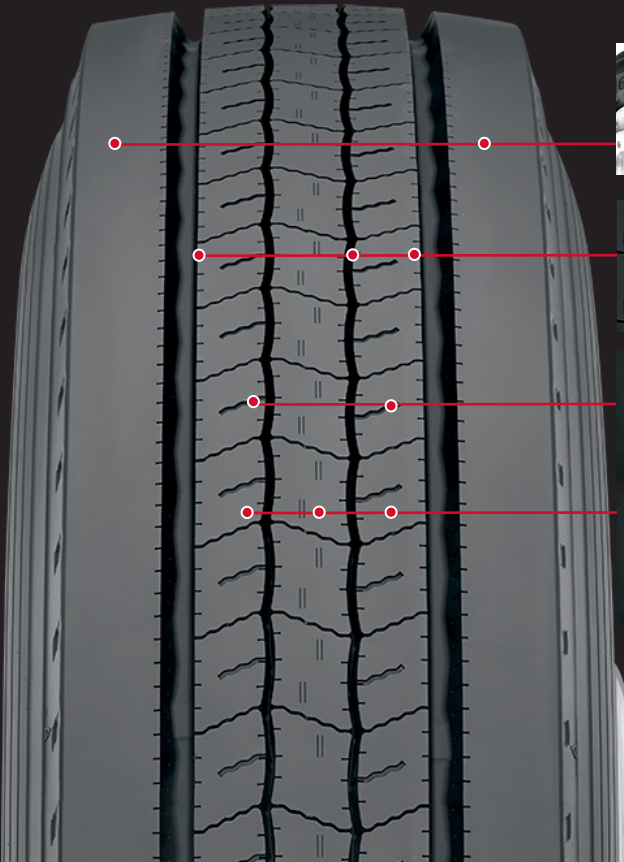

- OUTSTANDING FUEL EFFICIENT
- EXCEPTIONAL TREAD LIFE
- DURABLE CONSTRUCTION

116R™

BECAUSE YOUR ROAD IS THE HARD ROAD.

Introducing the all-new Yokohama 116R™. Engineered for the harsh, unforgiving roads your drivers face every day, the 116R is built to withstand whatever the mean streets can dish out. So, whether you're looking for a regional work horse or a fuel-sipping super-regional tire that lasts and lasts, we've got you covered.

SOLID SHOULDER RIBS

Resist tearing and provide uniform surface pressure to resist irregular wear.

MULTI-SIPED RIB EDGES

Relieve pressure on the ribs to help fight river wear.

DEEP SIPING

Lasts the life of the tread to provide long lasting traction.

HIGH CENTER RIBS

Significantly reduce rolling resistance for increased fuel-efficiency.

ADVANCED COMPOUND

Provides rolling resistance so low, the 116R exceeds GHG Phase II MY2027 verification standards.
